

DARK MATTER redefines the interfaces between technology, creativity and interaction in order to create space for personal sensory experiences.

DARK MATTER is an exhibition of expansive light installations in a converted factory. The exhibition introduces new technical concepts made visible to the public for the very first time.

Technical Manager (m/f/d) full-time | on-site

- YOUR TASKS:**
- * Oversee and manage the commissioning, daily operation, and the activation and shut-down of technical systems
 - * Ensure the maintenance, care, and servicing of event and building technology, including coordination of internal staff and external service providers
 - * Detect and promptly resolve technical issues
 - * Provide professional and disciplinary leadership to the technical team, including personnel planning, task delegation, and leading regular team meetings
 - * Plan resources, organize workflows and optimize team operations
 - * Handle the installation, supervision, and dismantling of equipment for temporary events (e.g., concerts, shows, parties)
 - * Ensure a first-class appearance of the exhibition and a positive visitor experience
 - * Monitor compliance with safety and hygiene regulations
 - * Coordinate orders and delivery schedules in collaboration with the purchasing department
 - * Establish and maintain relevant business contacts to support operations

- YOU BRING:**
- * In-depth expertise in AV systems such as trussing, moving lights, sound systems, microphones, amplifiers, projectors, and other event technology

- * Proficiency in control protocols like DMX, Art-Net and Dante, and comprehensive knowledge of power distribution and the safe installation of event technology
- * Experience in the use and maintenance of winches, chain hoists, automation systems, and kinetic installations, ideally in an artistic context
- * Proven experience in the technical management of events, exhibitions, and live shows
- * Rapid troubleshooting and structured problem-solving skills, even under high pressure during live events
- * Comprehensive understanding of safety protocols and regulatory standards for large-scale installations, including risk management
- * Deep knowledge of maintenance, fault analysis, and servicing of technical systems
- * Strong leadership, communication and organizational skills
- * A solution-oriented, precise approach to work and the ability to operate independently and efficiently in a dynamic environment
- * Fluent English and German language skills

WE OFFER:

- * Participation in the ongoing development of art, events and technology in Berlin
- * A highly motivated, international team and a friendly working environment - we stand for open-mindedness and diversity!!
- * Independent work, flat hierarchies and the opportunity to contribute your own ideas
- * Regular team events, e.g. BBQ and summer party
- * Attractive benefits in the areas of professional development, wellness, and mobility
